1921-22

KENNEWICK NURSERY

A Mail Order Nursery
Saves

30%

Strictly High Class and Reliable
NURSERY STOCK

HORACE WRAY, Prop.
Kennewick, Wash.

VERY IMPORTANT

PLEASE READ: This is a special introductory price list. Special in the sense of lowness of prices and introductory in the sense of introducing to orchardists an efficient and practical mail order system of doing business. It is in no way meant to be a reflection upon the so-called "tree agent" and his high prices or the company he represents. It simply is a step in advance of the times to eliminate heavy expenses and to give the consumer the full benefit. It is a conscientious and honest effort to reduce the complications and unnecessary effort in modern business to safer and saner lines. In other words, it is returning to old time principals and dealing first hand with one another.

QUALITY

PLEASE READ: My best efforts in the nursery business have always been to produce the very best stock possible and to grade it up to the highest standards. However, "actions speak louder than words" in this regard. Every salesman praises the merits of his wares—we all know that. And we also know that the best talkers sometimes turn out to be "base deceivers ever." So I ask, in plain justice to our mutual interests, that prospective planters give me a trial order. Make it as small as convenient to start with—the point is, I guarantee like quality at all times to everybody as long as the supply lasts.

TERMS

PLEASE READ: My terms are strictly cash on delivery. I do not require any advance with orders, but allow 5% discount where the full amount accompanies the order. I also allow 5% discount on all deliveries made at the nursery. Buyers who are short and need trees badly, by explaining the situation properly to their banker, can usually get accommodations sufficient to enable them still to take advantage of the special prices and reliable quality herein quoted. It is a bankers' business to extend credit. A good banker stabilizes the finances of his community by helping his patrons according to their various opportunities and ability. And I can safely add that he is much more interested in making loans for development than he is in making loans for pleasure spending and speculation.

GUARANTEE

PLEASE READ: I exercise the greatest care to keep my varieties true to name, and hold myself in readiness at all times to replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed between the purchaser and myself that I shall not at any time be liable for a greater amount than the original price paid for the goods.

REFERENCE

First National Bank, Kennewick, Washington.

APPLES
